Discover Belgium is certain your employees will appreciate this highly original tour of Liège, a city that has undergone a modern transition while retaining its precious older districts.

With its new railway station, Liège is closer than ever to Brussels, Paris, London, Amsterdam, Cologne and Frankfurt. This spectacular and futuristic creation, designed by the well-known Catalan architect Santiago Calatrava, represents a woman reclining against the hill behind her. A gateway to the city that is sure to get those attending your tour talking.

After the modern comes the ancient

After visiting this architectural masterpiece, you enter Liège old town. The route runs alongside the Meuse river, which crosses the city from south to north. Your staff will also take a kook at the wooded hillsides surrounding the "fervent city", as Liège is known, and its typical old quarter, of particular delight to visitors.

This somewhat different visit to Liège will give your event extra appeal.
